SDC SERIES DUST COLLECTORS

Improves Air Quality in Working Environments

A dust collection system provides air quality control by safely removing particles from the environment during the wire and cable separation process. SWEED provides a variety of dust collection options to choose from depending on the size of the wire and cable system being installed.

STANDARD FEATURES (2,500 - 24,000 CFM UNITS)

- » Multiple filtration options available
- » Layout configuration and components based on application
- » Indoor or outdoor use available
- » Cyclone and/or dust box (baghouse)
- » Blower
- » Silencer
- » Rain cap
- » Explosion doors
- » One-year warranty

OPTIONAL FEATURES

- » Airlocks
- » Fire suppression
- » Bin-level indicators
- » Torn cartridge sensing
- » Auto blow-off (filter cleaning)

8,000 CFM WITH SOCKS

SDC SERIES

PRODUCT SPECIFICATIONS

3,000 CFM PERFORMANCE DATA

HP	4 HP
Overall Dimensions	59" L x 38" W x 93 1/2" H
Weight	270 lbs
Electrical	3 PH – Multiple voltages available

4,000 CFM PERFORMANCE DATA

HP	5 HP
Overall Dimensions	134" L x 29" W x 74" H
Weight	286 lbs
Electrical	3 PH – Multiple voltages available

8,000 CFM PERFORMANCE DATA

HP	40 HP
Overall Dimensions	22 1/2' L x 7 1/2' W x 17' H
Weight	17,500 lbs
Electrical	3 PH – Multiple voltages available

16,000 CFM PERFORMANCE DATA

HP	75 HP
Overall Dimensions	31' L x 16' W x 33' H
Weight	33,000 lbs
Electrical	3 PH – Multiple voltages available

20,000 CFM PERFORMANCE DATA

HP	75 - 125 HP
Overall Dimensions	Varies – Up to 36' tall depending on discharge; length & width depend on orientation
Weight	Varies
Electrical	3 PH – Multiple voltages available

24,000 CFM PERFORMANCE DATA

HP	100 - 150 HP
Overall Dimensions	Varies – Up to 40' tall depending on discharge; length and width depend on orientation
Weight	Varies
Electrical	3 PH – Multiple voltages available
